

Type 1 Wheels For Pipe Thread Repair and Maintenance

Oilfield Inspection Industry applications calling for rust, corrosion, and threadlock removal from pipe and couplings have had success using Rex-Cut Type 1 wheels because of their forgiving nature.

APPLICATIONS

Rex-Cut Type 1 GFX and HFX wheels are ideally suited for rust and corrosion removal from pipe threads.

JTX and MTX are designed for grinding thread roots and repairing cracks.

For threadlock removal without changing the thread geometry, Smooth Touch wheels with a medium bond are recommended. Additionally, Smooth Touch lasts up to five times longer than unitized.

PRODUCT DESCRIPTION

These Type 1 wheels feature multiple layers of non-woven cotton fabric and aluminum oxide abrasives pressed and bonded together. This construction allows for new grain to constantly be revealed as the wheel works. In addition, the cotton construction makes the wheel resilient and smooth running.

Contact Rex-Cut Abrasives at 1-800-225-8182 or info@rexcut.com for more information regarding ordering and distribution.

Diameter x Thickness x Arbor	Grit	Max RPM	Part No.
Cotton Fiber Type 1 Wheels - GFX			
2" x 1/8" x 1/4"	A54	18,145	124003
2" x 1/4" x 1/4"	A54	18,145	126403
