

W222 Mounted Points For Safer Sheet Metal Fabrication

Rex-Cut Abrasives offers two types of mounted points that are designed for edge-breaking stainless steel sheet metal to permit safer handling and fabrication by workers; shape **W222 in A54GFX** and shape **W222 in Medium Rubber**.

PRODUCT FEATURES

- Breaks edges on sheet metal
- Controlled metal removal without changing part geometry
- Self-dressing to the work piece
- Smooth, chatter free operation
- Superior surface finishing

APPLICATION

Fabrication

Break edge on sheet metal for safer handling

Just run over the edge of the sheet metal and form a groove in the Mounted Point. Once the original groove becomes too deep, simply move up the point and start a new groove.

PRODUCT DESCRIPTION

W222 in A54GFX-NC - part no. 339873
For faster cutting, longer life

W222 in Medium Rubber - part no.
For smooth action, less chatter

Available in a 1" x 2" size for this application, Rex-Cut mounted points are also offered in several other sizes.
